

It is mandatory that the iPad is set up using your child's own Apple ID. This is established through the Family Sharing set up below. Please do not establish the iPad with a shared parent Apple ID.

- Correctly creating your child's own Apple ID will ensure that they are only accessing age appropriate Apps and content in Safari. This can be done through Apple's Family Sharing.
- Family Sharing makes it easy for up to six people in your family to share each other's iTunes, Books and App Store purchases without sharing accounts. Parents are automatically prompted to approve or decline any purchases children make (free or paid) straight from their own device.
- Apple (133 622) can assist you over the phone or you can arrange a time to go into your closest Apple store, if you have any difficulties setting up Family Sharing.

NOTE: You must have an Apple ID. If you don't, go to <u>www.appleid.apple.com</u> > Create Your Apple ID and follow the prompts. To receive notifications about your child's iPad, you need to have your own Apple Device.

Step 1. Open Settings App on your Apple device (iPhone or iPad) Select "your name" If you do not already have an Apple ID you can create one here -https://appleid.apple.com/account Then sign into your child's iPad with your Apple ID.

Step 2.

□ Select Set up Family Sharing

Step 3.

□ Select Get Started

Step 4.

□ Select *iTunes* & App Store Purchase

Step 5.

□ Select Continue to Confirm Account

Step 6.

□ Select *Continue on Shared Payment* (a Visa or Prepaid Visa is required)

Step 7.

□ Select Invite Family Members

Step 8.

□ Select Go to Family Settings
